INTRODUCTION

For the past six years the State Council of Higher Education has published a report of selected characteristics and degree programs for Virginia's state-supported colleges and universities.

In January 1971, twenty-six accredited colleges joined together to form the Council of Independent Colleges in Virginia. Working through the Council of Independent Colleges, the State Council of Higher Education has been able to collect information on selected characteristics and degree programs from the private sector of higher education in Virginia.

This publication is the result of an increased level of cooperation between the public and private sector of higher education in Virginia. By combining data from independent institutions with information collected from our state-supported colleges, a more comprehensive picture of higher education in the Commonwealth can be obtained.

This report has been developed to provide information frequently requested by students, parents, and other adult citizens. Prospective students are encouraged to seek information concerning admission standards and procedures from the Director of Admissions at each institution in which they are interested. Although costs are generally higher at the independent colleges, it should be noted that financial aid opportunities at these institutions may compensate for the additional cost.

Although the State Council will be pleased to respond to questions of a general nature about information in this publication, requests for additional or more detailed information should be directed to the individual institution.

All data included in the report are for the academic year beginning September, 1972 and certain changes can be expected to occur in subsequent year.

The State Council hopes that this report will prove to be a valuable service to higher education in the Commonwealth. The Council welcomes comments and suggestions for future improvements in this publication.

Project supported in part by a grant from the Division of Academic Facilities of the U. S. Office of Education
